Astounding new live Liane Carroll/ Brian Kellock album to be released 4th May 2009

Splash Point Records very proudly announces the forthcoming release of "Liane Carroll & Brian Kellock - Live at the Lampie" (SPR009CD)

"This may well be British jazz's greatest double-act" Rob Adams, The Herald

Scotland's finest pianist and England's finest singer....

This astounding new album, from 2 gigs recorded at Aberdeen's Blue Lamp venue in Oct 2008, showcases the incredible virtuosity, raw passion and interplay between these two much-loved performers. It's an out-and-out full-on jazz assault, where one instrument happens to be a voice.... and what a voice! Liane has never sounded better.

As Producer Neal Richardson notes on the album sleeve: "Take your seat in the front row for an incredible gig... This is jazz on a high wire - with risks, thrills... and telepathic communication in the music. On this recording we've tried to deliver the raw emotional power of Liane + Brian's performances, with a minimum of production. I hope you agree!"

The launch gig will be at Pizza Express Jazz Club, Dean St, Thursday 14 May 2009.

The duo will also be on tour performing numbers from the album:

3rd May - Wiltshire Music Centre, Bradford on Avon

23rd May - Pizza Express Music Room, Maidstone

31st May - The Sage, Gateshead

Available in the shops and to download from 4th May 2009. (Physical distributor – Proper)
